

Cell Theory and Structure Notes

Cells:			
All Cells contain (AT LEAST):			
Cell Theory			
Prokaryote			
Eukaryote			
Cell Jobs			

Organelles

1. Cells need Power! Making Energy for daily life functions	I.
	II.
	III.
	IV.
	V.
2. Cells need workers (Proteins)	-Making Proteins
	•
	•
	•
	VI.
	VII.
	VIII.
IX.	
3. Cells need to make more cells	X.

- » Review: Cells have 3 main jobs
 - > make energy
 - + Energy for life functions
 - + cellular respiration & photosynthesis
 - + need to remove wastes

- > make proteins
 - + instructions in DNA
 - + chain together amino
- > make more cells
